

LIGHTHOUSE
SCHOOLS PARTNERSHIP

WELCOME TO THE LIGHTHOUSE SCHOOLS PARTNERSHIP

The Lighthouse Schools Partnership was formed with the aim of providing structure and support to its members so they can serve their communities as excellent schools. Our beginning was in 2016 at a time of rapid change in the educational landscape. When we faced choices about who we wanted to work with, we concluded that a local partnership with geographical neighbours and who held the same values about educational excellence, was the best solution.

We have an absolute principle of total equality between the schools. Each Headteacher has an equal voice on our Executive Team and we aim to offer every school the support that it needs to flourish.

As we grow we will maintain these ethics of service to our communities and partnership between schools. We will choose to work with schools where we believe we can make a difference and which, in turn, can play their full part as equal members in the Lighthouse Schools Partnership.

As a Trust we work for the success of every child and young person and we place the sharing of excellent educational practice at the centre of our mission. We provide Continual Professional Development to our member schools and offer an attractive traded service to other organisations. All our schools work together to support each other and we contract in experts from beyond the Trust to act as independent School Improvement Partners.

LSP also provides business services to our members. We have strong Finance and HR functions and are now developing expertise in

estates and IT systems. Together we employ professionals to support our schools in Admissions, Inclusion, Special Educational Needs and Educational Welfare.

Each school retains its own culture and the leadership team in each school has the autonomy to manage their school in the way which serves their particular context best. Lighthouse Schools Partnership stays in the background as we want families and employees to focus on the school as the place where almost all decisions and activity take place.
