

Working with schools & colleges to support the continuous improvement of mathematics education for all students in the following local authority districts: Bath & North East Somerset, Bristol, South Gloucestershire, North Somerset and Somerset. The Maths Hubs Programme is funded by the DfE and coordinated by the National Centre for Excellence in the Teaching of Mathematics.

Boolean are recruiting ...

Applications are now open for the following programmes for 2021/22

(Closing date - 9 am 28 May 2021)

Do you want to become a specialist in teaching for mastery and support your own and other schools to develop teaching for mastery approaches?

2021/22 Secondary Mastery Specialist Programme

Join the Secondary Mastery Specialist Programme to develop and work as a Secondary Mastery Specialist ... during the programme you will receive fully funded professional development from experts, have time to develop your own expertise, and then to support others. We are seeking applications from secondary schools that wish to nominate 'lead teachers' to take part in an important three-year professional development programme leading to the designation of *Secondary Mastery Specialist*. The programme is fully funded by the Maths Hubs Programme so is **free** to participating schools. For further information about the programme and how teachers and their schools can apply to be involved follow the link [Here](#).

2021/22 Primary Mastery Specialist Programme

We are now seeking to recruit a seventh cohort of expert primary school teachers to develop and work as *Primary Mastery Specialists*.

During the programme teachers will receive fully funded professional development from experts, have time to develop their own expertise, and then to support others. The programme is fully funded by the Maths Hubs Programme so is **free** to participating schools. For further information about the programme and how teachers and their schools can apply to be involved follow the link [Here](#).

NCETM PD Lead Development and Accreditation Programme (for teachers of maths in all phases from Early Years to Post-16)

If you have existing experience as a leader of professional development and wish to develop further in this role, this programme is for you. Your prior experience could be within your own setting/organisation or more widely, including work with the hub. The programme consists of a blend of online and face-to-face activity equating to 3 days, and a series of independent planning and study tasks to be completed in your setting, spread over the academic year. The programme is fully funded by the Maths Hubs Programme so is **free** to participants and their schools. For further information and to apply follow the link [Here](#)

The Boolean Maths Hub is committed to championing equity, and improving outcomes for all children and young people in mathematics. We achieve this through our inclusive collaborative community of local and national leaders of maths education. In recruiting for our team, we welcome the unique contributions that colleagues can bring to our shared vision.
